

PREPARE. BOND. WATERPROOF.

Professional bonding adhesives and surface preparation for Continental membrane systems.

PLIOBOND 1746 PVC BONDING ADHESIVE

Strong Adhesion | Fast Drying | Easy Application

- VOC-compliant, synthetic polymer-based adhesive
- Fast drying with ample membrane positioning time
- Bonds to ISO board, metal, wood, masonry & recover boards
- Available in 1-gallon and 5-gallon containers

PLIOBOND 7008 WATER-BASED ADHESIVE

Reliable Adhesion | Roll-On Application

- Water-based adhesive for fully adhered PVC membranes
- Suitable for horizontal and vertical applications
- Compatible with ISO board, metal, wood & masonry
- Apply to substrate only with a medium-nap roller

SUBPREP PATCH

Surface Preparation | Smooth, Professional Finish

- Fiber-reinforced, polymer-modified cementitious compound
- Patches and skim coats concrete and approved wood
- Just add water; sandable after curing
- Feather-edge finishing for smooth transitions
